

AWARE HOUSE
AMSTERDAM

RYKE SOFA

We create Dutch design furniture of the highest quality that truly meets your every need. Our project division focuses exclusively on the demands and wishes of the contract market. We know comfort is key as it comes to offices; that is why we offer extra rich upholsteries, a tilt-function and swivel bases on a lot of models. Anything to make a working day as pleasant as possible.

OFFICE

FAVOURITE FEATURES

TILT-FUNCTION
SWIVEL BASES
WHEELS
HIGHER/LOWER SEAT HEIGHT
ADJUSTABLE SEAT DEPTH

We serve the hospitality sector with many years of experience and a personal touch, always. Whether you have a special fabric in mind, want a custom-made piece of furniture or need our help housing in: we are there for you. Together we create the right circumstances and atmosphere, so anybody can feel at home. Quality and continuity guaranteed!

HOSPITALITY

HIGHLIGHTS

ONE QUALITY FOR ALL QUANTITIES
ORDERS FROM 1 UP UNTIL OVER A 1.000 PIECE(S)
DECIDE ON DETAILS FOR EVERY SINGLE PIECE
LABELLING AS REQUIRED
FULLY CUSTOM MADE FURNITURE

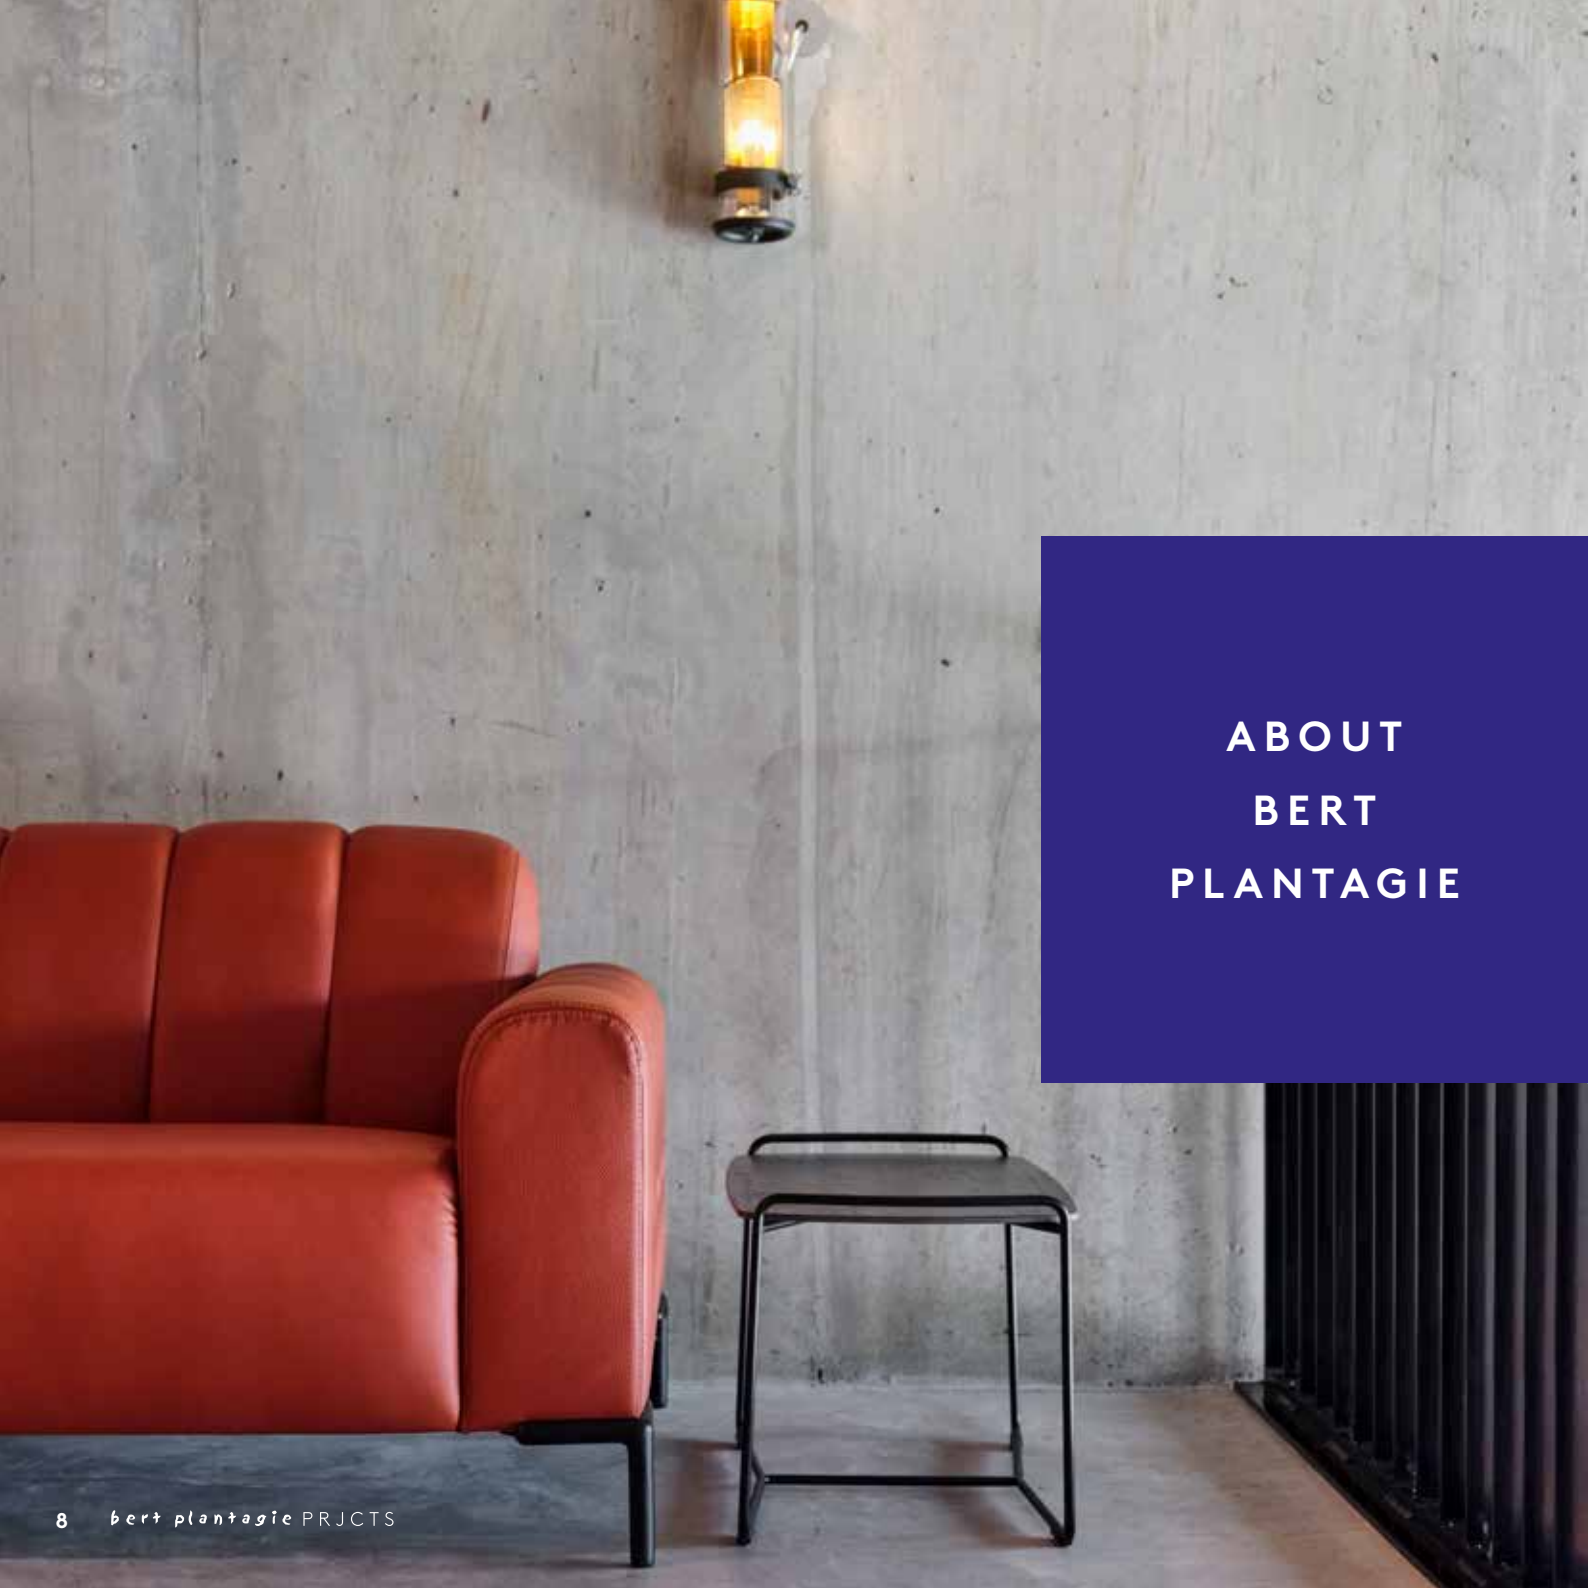

We provide all options to create a calm, sanitary en secure environment. Not only by processing truly all industry standard fabrics, but also by offering things like a reinforced H-frame, extra wide armrests and special seams. Everything incorporated in designs that are so comfortable, to the touch as well as to the eye. We provide the support that you need, in every way.

HEALTHCARE

COMFORTABLE SOLUTIONS

EXTRA WIDE ARMRESTS
REINFORCED H-FRAMES

IN HOUSING SERVICE

ABOUT BERT PLANTAGIE

100% DUTCH DESIGN

STARTED OUT IN 1958 AS SMITS STEEL FURNITURE

SPECIALIZED IN FURNITURE FOR OFFICES, HOSPITALITY AND HEALTH CARE SINCE THE 1980'S

FAMOUS FOR ITS ENDLESS CUSTOMIZATION OPTIONS

SITUATED IN THE NETHERLANDS

CURRENTLY SELLING >2.500 UNIQUE PIECES OF FURNITURE PER WEEK

ALL MADE AFTER ORDER AND CREATED BY HAND IN EUROPE

GREAT CONTINUITY AND AN EXCELLENT AFTERSALES PROGRAMME

MAXIMUM COMFORT AND QUALITY, MINIMAL FOOTPRINT

HIGHLY COMMITTED, FROM QUOTATION UP UNTIL IN HOUSING

Our craftsmen solely work on made-after-order bert plantagie furniture, in modest but modern studio's and factory's in Europe. They are as dedicated and skilled as can be - and therefore true quality artists.

OUR COLLECTION IS CREATED
WITH UTMOST CARE AND
ATTENTION TO DETAIL

CRAFT M A N S H I P

Continuity is another important aspect of our philosophy. We take time to develop our products and as a result, they have a long lifespan, in our collection and after delivery. You can find spare & wear parts, care products and repair kits 24/7 in our online shop.

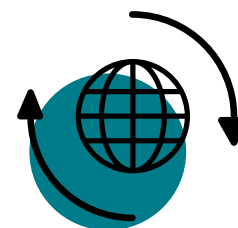

We offer more sustainable options, which you can recognise by our green chameleon logo. This animal is known for its ability to adapt, which inspires us to make the necessary changes for a better future.

SUSTAINABILITY

Live beautiful is our motto. In order to make that happen, we are concerned with the environment and make mindful choices. Learn more about them on this page, or see our website for more information.

LONG LIFE SPAN

Our furniture has an above-average lifespan. A second life is also an option, as reupholstery is possible. You can find spare & wear parts, care products and repair kits 24/7 in our online shop.

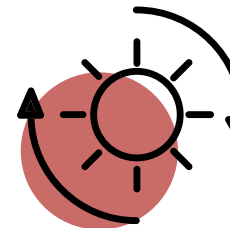

PEOPLE & SOCIETY

The bert plantagie workshops are situated exclusively in Europe. In all our offices, shops and production facilities, working conditions are optimal, in accordance with the Dutch standards.

REDUCTION OF WASTE

Our cardboard packaging is partially recycled and fully recyclable itself, and will be completely free of plastics in 2025. All our products are made after order and tailored to taste, so nothing goes to waste. Leftovers from our production chain are incorporated into new items.

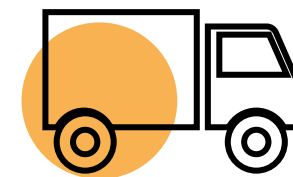

ENERGY EFFICIENCY

We are continuously working at making our premises more climate-neutral, for example with solar panels, LED lighting and good insulation. Our woodworking factory (including an indoor drying room) is heated exclusively with residual materials.

RENEWABLES

We are including more and more renewable, organic and/or fully recyclable materials in our collections. We also work on offering more sustainable choices to consumers. Please see our website for more specific information.

LOGISTICS

We purchase locally as much as possible and our products are manufactured close to our markets. We have our own fleet containing electric cars and gas powered trucks, that minimize the emission of transport.

INNOVATION

If there is a sustainable alternative for (parts of) our furniture, we want to be able to offer it. That's why we are constantly looking for new materials and exploring their possible applications.

KIKO CHAIR | ARMCHAIR
CARVE TABLE

We have redeveloped a large number of our furniture and made these models suitable for use outdoors, with the sometimes harsh Dutch climate in mind. For example, by using a different type of metal, replacing the standard filling and using different caps. We selected two special outdoor fabrics and an unprecedented number of sparkling colours for this collection, in order to continue offering you the freedom of choice we are known for. Want to learn more? Visit www.bertplantagie.com/outdoor and/or browse through the brochure.

Products that are also available in an outdoor version can be recognised by this symbol.

FABRICS

FIRE RETARDANCY

Professional use of our products often require built in safety measures, like fire retardant foam and/or fire resistant upholstery. For the latter, we have over a dozen fabric options in our standard collection, with various prices ranges and classifications up until Crib 5. All our leather is fire-retardant as well. We also offer a Customer's Own Material (COM) service, where you supply your own fabric and/or leather.
